CAN YOU BELIEVE HOW FAST THIS YEAR WENT BY? All the teachers want to wish the students good luck in their tests and exams (for those doing the Cambridge Exams and / or school exams).

We hope you all learnt a lot at the Institute this year but also had fun while learning.

My Weired animal

*My animal is half a lion half a zebra.
It has got black and white stripes and
a big tail. The rest of the body is yellow.
His eyes are small and round and his
mouth is big and dangerous. It also has
got a fantastic mane.*

*Her name is Sky.
She is a whale with
panda ears, cat hands,
dog nose and butterfly wings.*

“Rick and Morty”

“Rick and Morty” is an American adult animated science fiction TV show. The series is based on the fantastic adventures of Rick Sanchez and his grandson Morty Smith, adventures that happen not only in their dimension, but also in others. Right now, this TV show has aired for 3 seasons (31 episodes) from 2013 to 2018, but a new season has been announced and is to be released in 2019.

In my opinion, this show is not only original, but also unusual because, besides being extremely funny, it can also go through serious periods and even dark moments, which makes it very interesting. In addition, you can learn a lot by watching “Rick and Morty”, especially when it comes to life. The two main characters go through experiences that hurt them, emotionally and physically, which makes you really think about it and makes you put yourself in their place.

I think everyone will enjoy watching it and it will turn out to be a bigger success than what already is because, as I said before, this TV show is really unusual and it makes you want to watch more and more, even if you have to wait 1 year for another season to come out. Also, “Rick and Morty” makes you laugh out loud about the stupidest things you could imagine.

My Easter holidays

In my first week of Easter holidays I was attending my school’s free time activities. It was very funny, we had a yoga class, we cooked chocolate salami and we watched a movie.

In the second week I went to Andorra with my family.

We went by car and we had to wake up at five o’clock because it was a long trip (more or less 12 hours).

During five days I went skiing in the morning and in the afternoon I played with my cousins, or swam in the pool.

On Saturday we came back home.

On Sunday morning we “received Jesus” at my grandmother’s house. After that we had lunch with my aunt and my grandma at home and in the afternoon I played football and video games.

I loved my Easter holidays!

Zendaya Coleman

Zendaya Coleman is an American singer, actress, dancer and model. She was born in October 1996 in Oakland, California. She was raised in part of the California Shakespeare Theatre, where her mother worked as store manager.

Zendaya began her professional career working as a Model for Macy’s, Mervyns and Old Navy. Between 2010 and 2013 she was, along with Bella Thorne, protagonist of the series “Shake It Up” in the Disney Channel. Between 2015 and 2018 she was protagonist of the series “K.C. Undercover”.

Now, she participates in the new Spider-man movie, having already participated in the previous one and she is on tapes for the Cinderella movie, being once again the protagonist.

Hi Tomás,

We're having a good time in Maldivas. It's sunny and hot here and the people are nice and friendly.

We're staying in a bungalow above the water. We go swimming by opening the door!

Yesterday we went in a boat trip. I swam with fish and a whale shark.

Today we are trying to see a turtle in the sea and to see some new species.

See you soon, Pedro

Fast food restaurants should be banned. Do you agree?

Every time I'm told that fast food is rubbish, I get really annoyed. I know it is not the healthiest food in the world, but it's not that bad either.

Firstly, Our choices in these restaurants are important because in most cases there is soup, salad and fruit.

Secondly, the worst about fast food is the amount we eat. There are known cases of people who eat fast food and have no problem with obesity, However, as with anything that is eaten in exaggeration, it is unhealthy.

Finally, I think people should feel good and if you only eat unhealthy food sometimes, there is no harm.

To conclude, What matters is that people make good choices and be reasonable when they eat this type of food. And above all, you should be happy.

Surprise party for your boyfriend

Have you ever had to prepare a party for your boyfriend? Here's how to impress your soulmate!

First of all, you need to think about what he likes.

Secondly, you need to make a guest list with his best friends. If it is possible, include people he might not have been able to see recently due to distance.

Booking a place is another item that is extremely important. Choose his favourite restaurant and fill it with balloons. Let him know his birthday is a big deal!

Another thing to remember is the gift and the cake. For example, if they are a music lover, sports or technology fan, customize with it. And why not surprise him with special video wishes from his favourite people?

Finally, don't forget to spend some time alone with him and give him a special kiss!
